Operations Division

Addendum No. 1R

District Court Enterprise Video Distribution System

K18-0069-25B

June 12, 2018

This Addendum is being issued to amend and clarify certain information contained in the above named small procurement RFP. All information contained herein is binding on all Offerors who respond to this small procurement RFP. Specific parts of the RFP have been amended. The following changes/additions are listed below; new language has been underlined and language deleted has been marked with a ~~strikeout~~ (ex. language deleted).

2.2 Scope of Work:

- Approximately 65% of the locations have PoE switches.
- I would anticipate 50% needing a separate power supply, just in case we have misidentified some of the locations.
- According to what was discussed yesterday, Wi-Fi is not suitable for this connection, but Brian had indicated DC anticipates wiring to be completed by 8/1/18.
- We can work to optimally time the installations so that the vendor is not visiting locations that are not yet wired.
- At each location we will have network connectivity and power where needed for the installation. We have a dual power outlet at each location.

Date Issued: June 12, 2018
