SECTION 2 – STATEMENT OF WORK

2.1 Purpose & Summary

The Administrative Office of the Courts (AOC) issues this Request for Proposals (RFP) to solicit proposals from prospective Offerors to make an award to one qualified firm to provide a cloud-based software solution to replace and automate current grants management functions and improve reporting capabilities.

The current system of grants management is well structured but inefficient and requires a more integrated experience for all stakeholders. In preparation for the transition process, the AOC engaged grantmaking technology consultants to review its current processes, and to prepare additional documentation to supplement the Statement of Work (2.4) and Functional Requirements (2.5) which outline the desired future processes and guide prospective Offerors in their submissions and (where applicable) through the demonstration process.

The AOC understands it is unlikely that a system will meet all these requirements out of the box and is open to working with vendors on acceptable workarounds, process changes and analyzing the cost/benefit of some features to ensure the project does not exceed the expected scope.

2.2 AOC Grantmaking Background

AOC seeks to advance court innovation and services by offering grants and other support to courts and justice partners across Maryland. The AOC currently has 11 grant programs managed by 5 grantmaking departments and makes approximately 160 grants per year with an annual disbursement of close to \$30 million. Grants range from under \$5,000 to over \$2 million, and grantees are typically individual courts within the Judiciary, local government agencies, or nonprofit organizations. There are also some cases of the AOC receiving federal grants that it subgrants through its programs. The process for each grant program is generally standardized with minor differences with the internal review. Post-grant award and reporting are all the same across programs.

Current State Maps (see Appendix 1.1 - Current State Maps.pdf) and a Current Systems Map (Appendix 1.2 - Current Systems Map.pdf) have been produced to show the current granting processes and technologies utilized by the AOC.

2.3 Organizational Structure & Staffing

There are approximately 375 staff in total at the AOC, and 52 within the Programs Division. All staff are based in its Annapolis, MD office. The following divisions are involved in the grants management process:

- Programs: Works closest with grantees prior to submission, manages internal/external review process, and reporting;
- Operations (Procurement): Post-award administration of Purchase Orders;

- Legal Affairs: Performs legal review of all grants;
- Budget & Finance: Makes payments and oversees financial management system (PeopleSoft); and
- Judicial Information Systems: manages servers, authentication, networks and security.

2.4 Statement of Work/ Software Requirements

2.4.1 Design and configuration of the system to implement AOC's grants management processes including workflows, fields/forms, controls, reviews, alerts/notifications, document templates, and user dashboards.

2.4.2 Grantee Portal – design and configure portal to match the grantee interactions with the grantmaking process ensuring security of data, ease of use and functionality such as: historical grant information, grant application forms/workflows, reporting and budgeting submission, document generation (such as invoice generation).

2.4.3 Migration of historical data into the system, including template preparation, field mapping, data import/export, validation support and ideally capacity to link external accounts to historical data.

- a) Refer to Appendix (1.3 – Data Migration) for number of records and years of data required to be migrated.
- b) MDJ will conduct intake of FY2021 Grant Applications utilizing the current process due to timeline constraints. This will create a requirement to migrate additional data for the FY2021 Grants such as budgets and goals, which are not required in the core data set.
- c) Data is currently held in Microsoft Excel spreadsheets.

2.4.4 Integration with MS Office with the ability to associate files and emails with a grant record.

2.4.5 Reporting support, as needed with ad-hoc reporting capabilities and report building functionality.

2.4.6 Review portal, with capacity for collaborative review and bulk update of records.

2.4.7 Security - design and configuration of system's security model, including roles and permissions-based security as well as consideration of the AOC's internal IT requirements.

2.4.8 Training regarding system capabilities to ensure successful staff knowledge transfer.

2.4.9 Overall management of the implementation to ensure a successful migration to the new system.

2.4.10 Field tracking capabilities for audit purposes.

2.5 Functional Requirements

2.5.1 Standard Functional Requirements

- The system will send notifications via email
- Users can control the frequency of notifications that they receive
- Ability to assign applications to program staff using workflows
- Ability to switch between roles (eg. Grantee/Reviewer)
- Ability to customize application forms with conditional formatting, branching logic, conditional validation rules (based on previous responses), or hidden questions only visible to staff.
- Ability to manage multiple grant programs with different application and review stages, and different application cycles.
- Data piping (to prevent duplicate data entry)
- Ability to move multiple applications
- Records that provide audit log reporting of user transactions and system changes
- Supports permission granularity
- Supports batch updates to grant records

2.5.2 Intake and Review - See Appendix (2.1 Intake and Review.pdf)

Note: the numbers in each section (e.g. 1-14) refer to the steps in the referenced process map, the process maps also have notes for further reference;

- (1-14) The intake and review process include preparation of the Notice of Funding Availability (NOFA), which serves as the starting point for a ‘program’ (round of funding). The system will hold a document template which can be modified by the System Administrators. The NOFA should be generated with a sequential identifying number (eg. N##-#####).
- Once the NOFA is approved by Senior Management, the Program administrator opens up the program for application intake. Upon completing this action, the NOFA will be sent via email to the AOC’s webmaster for processing on external sites. At this point the system should also send notifications to grantees in the database who previously applied to this Program.
- Alongside this process, the reviewer groups should be set up in the system in order to distribute grant applications for review. It is important to note that one user may have multiple roles eg. Grantee and Reviewer. Reviewers are assigned to applications based on the subject matter of the grants, review forms are not standardized across programs, however within a program (NOFA round) the review form will be the same.

- (15-22) Grantees will then go through the application workflow within the GMS. This includes an eligibility test which will prevent the grantee from proceeding if they do not meet the basic criteria of the program. Workflow rules should be flexible enough to display different workflows depending on the applicant's characteristics. The Grantee will submit a budget during this process, ideally with compliance rules related to total spend and spend in each category.
- (23-25) The system will generate a summary of the application, including any related historical records and notes fields for Program Managers to add comments only available to internal staff.
- (26-42) Reviews occur in stages - this first being an online review where reviewers can view assigned applications and add comments, scores, and recommendations. After all reviews are submitted, the program lead will organize an in-person review meeting - ideally, the system will enhance this meeting by enabling a way for the facilitator to update and add notes to grants during the meeting.
- After the review meeting, there is a final review of all grants before all recommended grant award amounts are marked as 'Ready for Review'. Once all recommended award amounts are marked as 'Ready for Review,' a notification should be triggered by a system administrator which will notify the State Court Administrator (Employee Role with Approval Privileges) that all recommended awards are ready for review and approval.
- (43-46) The State Court Administrator has the final approval and may modify or affirm the recommended grant award amounts in the system. A table view with the capacity to open up individual grants is the ideal layout. Once the review process is complete, the relevant grants are updated with an 'awarded' or 'declined' status.

2.5.3 Award Process - See Appendix (2.2 Award Process.pdf)

- (1-4) The process of updating email and letter templates occurs at the same time as the NOFA review (2.3.2, 1-14). System administrators should have the capacity to update document templates and email templates from within the system.
- (5-8) This is a document generation process; the program manager should have the ability to update and change the contents of the documents to be sent. The program manager will manually enter a Grant Award Number at this stage.
- (9) The GMS is not expected to have any integrations with the financial management system (PeopleSoft) - however a report to assist program staff in the manual data entry process to update the financial management system is required.

- (10 - 14) During the award acceptance process, the grantee will log into the GMS and submit their final budget along with other forms/information. If eligible (non-profits only) they will be able to opt into the 'Alternate Disbursement' workflow, if the grantee is not a 'nonprofit' they will not have the option to opt into this workflow and will be taken through the regular award acceptance workflow. The award acceptance process will involve the Grantee reading, accepting, and signing forms.
- (15 - 30) The approval notices then go through approval workflows, first with the program manager reviewing the applications and then a legal review workflow.
- (31- 36) Post legal review, the award letter is sent off for a final signature from the State Court Administrator. Executed documents are sent to procurement for creation of purchase orders. Program staff finalize the grant record by entering the Purchase Order (PO) Numbers. Once this is marked as complete, the executed documents are sent to the Grantee and the responsible program manager.

2.5.4 Reporting Process - See Appendix (2.3 Reports.pdf)

- (1-4) The Grantee is assigned a quarterly reporting schedule where they will need to complete a narrative and a financial report. Critical to this process will be the ability to bring data across from the application into the reporting process—in particular the budget table. Upon approval of a grant, the grantee will receive a notification stating that the report is available for completion and when it is due.
- Grants are paid out on a reimbursement schedule (the grantees report actual expenditures and can draw down against the balance of the grant each quarter). There is an option for nonprofit grantees to have 25% of the grant paid up front.
- The budget table should act as a running tally of the grantee's expenditures against the approved budget. Important information that should be contained on the budget table includes;
 - a) Line items in budget and approved expenditure amounts
 - b) Total payments to date (equal to the sum of payments)
 - c) Compliance warnings preventing the grantee from overspending on a line item by more than \$10,000 or 10% (whichever is smaller). For example, if approved budget for salaries was \$150,000 - the grantee should not be able to input values across the reports which sum up to be greater than \$160,000 (\$10,000 over budget).
 - d) In Q4, a warning if the grantee has underspent on their budget
- Grantees submit the Q4 financial estimate before the end of the quarter due to accounting/reporting obligations. As such, if the Q4 estimate does not equal the remaining balance on the grant, the system should warn the grantee that the amount that they submit is the amount they will be reimbursed in the last quarter, and any remaining balance will

not be paid out (or they will have to go through an amendment process). The Q4 estimate is separate from the Q4 report, which grantees will submit after the close of the award period.

- (5-14) Upon submission of a financial report, the system will generate an invoice which will contain the total of the financial report (amount requesting for reimbursement) as well as information such as grantee contact information and Purchase Order Number (which was input by procurement during the award process).
- Once the grantee has acknowledged that the information is accurate, the relevant program manager is notified, and they conduct a review of the submitted information. If there are issues, they will leave notes to pass back to the grantee who will resubmit. If the reports are approved, the grant moves to the payment process.

2.5.5 Payments - See Appendix (2.4 Payments.pdf)

- (1-3) The elements of the payment are manually entered into the financial management system by the authorized requester (assigned payment authorizer for the program). The role the GMS plays in this process is simply to provide easy access to payment information, and the ability to download the invoice as a PDF.
- (4-6) This process happens in the Financial Management System.

2.5.6 Amendments - See Appendix (2.5 Amendments.pdf)

- (1-10) Amendments that do not require additional funding go through a streamlined approval process. The grantee will submit an amendment form which outlines the requested changes. A common example of an amendment request is to move money between line items, for example move \$50,000 from the salary line to the contractors' line. In these cases, the program manager will apply the changes if the amendment is approved (with field tracking showing changes), or reject the request which sends a notice to the grantee.
- (1-4, 11-19) In the case of the grantee requesting additional funds, the program manager will recommend that the amendment be approved or may deny the request. This is passed to the Assistant State Court Administrator for Programs, who will approve or reject the additional funding. If approved, it is next passed to the State Court Administrator for final approval. The State Court Administrator may send the amendment back to the program manager with requested changes or may approve or deny the recommended amendment. Upon approval, the GMS will generate a supplemental award letter to be signed by the grantee.

- (20 - 34) The remainder of the grant amendment process follows the same process as the award with the legal review, and generation of executed document for procurement to update PO and distribution of the supplemental award letter to the grantee.

SECTION 4 – EVALUATION CRITERIA AND SELECTION PROCEDURE

4.1 Evaluation Criteria

- 4.1.1 Evaluation of the proposals shall be performed by a committee organized for the purpose of analyzing the Technical Proposals. Evaluations shall be based on the criteria set forth below. 4.2 Technical Criteria

- 4.2.1 The criteria to be applied to each Technical Proposal are listed in descending order of importance:

4.4 Selection Process and Procedures

- 4.4.1 General Selection Process:
- A. The Contract shall be awarded in accordance with the competitive sealed proposals process under the Judiciary’s Procurement Policy. The competitive sealed proposals method is based on discussions and revision of proposals during these discussions.
- B. Accordingly, the Judiciary may hold discussions with all Offerors judged reasonably susceptible of being selected for award, or potentially so. However, the Judiciary also reserves the right to make an award without holding discussions. In either case of holding discussions or not doing so, the Judiciary may determine an Offeror to be not responsible and/or not reasonably susceptible of being selected for award, at any time after the initial closing date for receipt of proposals and the review of those proposals.
- 4.4.2 Selection Process Sequence:

- A. The first level of review shall be an evaluation for technical merit by the selection committee. During this review, oral presentations and discussions may be held. The purpose of such discussions shall be to assure a full understanding of the Judiciary's requirements and the Offeror's ability to perform, and to facilitate understanding of the Contract that shall be most advantageous to the Judiciary.
- B. The Financial Proposal of each Offeror shall be evaluated separately from the technical evaluation. After a review of the Financial Proposals of Offerors, the Procurement Officer may again conduct discussions.
- C. When in the best interest of the Judiciary, the Procurement Officer may permit Offerors who have submitted acceptable proposals to revise their initial proposals and submit, in writing, best and final offers (BAFOs).
- D. Upon completion of all discussions and negotiations, reference checks, and site visits, if any, the Procurement Officer shall recommend award of the Contract to the responsible Offeror whose proposal is determined to be the most advantageous to the Judiciary considering evaluation and price factors as set forth in this RFP. In making the most advantageous Offeror's determination, technical shall be given greater weight than price factors.

- 5.3 If any products furnished by the Contractor become, or in the Contractor's opinion are likely to become the subject of a claim of infringement, the Contractor shall, at its option and expense: (a) procure for the AOC the right to continue using the applicable item; (b) replace the product with a non-infringing product substantially complying with the item's

specifications, or; (c) modify the item so that it becomes non-infringing and performs in a substantially similar manner to the original item.

- 5.4 If the Contractor obtains or uses for purposes of this Contract any design, device, material, process, code, supplies, equipment, text, instructional material, services or other work, the Contractor shall indemnify the AOC, its officers, agents, and employees with respect to any claim, action, cost, or judgment for patent, trademark, or copyright infringement, arising out of the possession or use of any design, device, material, process, supplies, equipment, text, instructional material, services or other work covered by any Contract awarded.

6. Non-hiring of Employees

No employee of the Maryland Judiciary or any unit hereof whose duties as such employee include matters relating to or affecting the subject matter of this Contract shall become or be an employee of the Contractor, as provided under MD Code, General Provisions § 5-501, *et seq.*

7. Non-employment of Contractor's Employees

Nothing in this contract shall be construed to create an employment relationship between the AOC and any employee of either the Contractor or the Contractor's subcontractors.

8. Disputes

Any claim regarding the proper interpretation of this Contract shall be submitted, in writing, to the Procurement Officer, together with a statement of grounds supporting the Contractor's interpretation. Pending resolution of a claim by the Procurement Officer, the Contractor shall proceed diligently with the performance of the Contract in accordance with the Procurement Officer's decision. An adverse decision to the Contractor may be appealed by the Contractor to the AOC within fifteen (15) days of the Procurement Officer's decision for adjudication pursuant to the Maryland Judiciary's Procurement Policy.

9. Maryland Law

The place of performance of this Contract shall be the State of Maryland. This Contract shall be performed, construed, interpreted, and enforced according to the laws of the State of Maryland, including MD Code, State Government § 12-204. No action relating to this contract shall be brought in any forum other than Maryland, whether or not the AOC is a party to such an action.

10. Non-discrimination in Employment

Contractor shall not discriminate on the basis of race, color, religion, ancestry, national origin, sex, age, marital status, sexual orientation, gender identity, genetic information, or an individual's refusal to submit to a genetic test or make available the results of a genetic test or on the basis of disability, or other unlawful forms of discrimination in the solicitation, selection, hiring, or

commercial treatment of employees, subcontractors, vendors, suppliers, or commercial customers, nor shall the Contractor retaliate against any person for reporting instances of such discrimination.

The Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that nothing contained in this clause shall prohibit or limit otherwise lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace.

The Contractor understands and agrees that a material violation of this clause shall be considered a material breach of this Contract and may result in termination of this Contract, disqualification of the Contractor from participating in AOC contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party. As a condition of entering into this Contract, the Contractor represents and warrants that every subcontract it has entered into or will enter into for the performance of any of the work under this Contract shall include a clause identical to the non-discrimination language above.

11. Contingent Fee Prohibition

The Contractor warrants that it has not employed or retained any person, partnership, corporation, or other entity, other than a bona fide employee, bona fide agent, bona fide salesperson, or commercial selling agency working for the Contractor to solicit or secure this Contract, and that it has not paid or agreed to pay any person, partnership, corporation, or other entity, other than a bona fide employee, bona fide salesperson, or commercial selling agency, any fee or other consideration contingent on the making of this Contract.

12. Non-availability of Funding

If the Maryland General Assembly fails to appropriate funds or if funds are not otherwise made available for continued performance for any fiscal year of this Contract succeeding the first fiscal year, this Contract shall be canceled automatically as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; provided, however, that this will not affect either the AOC's rights or the Contractor's rights under any termination clause in this Contract. The effect of termination of the Contract hereunder will be to discharge both the Contractor and the AOC from future performance of the Contract, but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any non-recurring costs incurred but not amortized in the price of the Contract. The AOC shall notify the Contractor as soon as it has knowledge that funds may not be available for the continuation of this Contract for each succeeding fiscal period beyond the first.

13. Termination for Cause

If Contractor fails to fulfill its obligations under this Contract properly and on time, or otherwise violates any provision of the Contract, the AOC may terminate the Contract by written notice to

the Contractor. The notice shall specify the acts or omissions relied upon as cause for termination. All finished or unfinished work provided by the Contractor shall, at the AOC's option, become the AOC's property. The AOC shall pay the Contractor fair and equitable compensation for satisfactory performance prior to receipt of notice of termination, less the amount of damages caused by the Contractor's breach. If the damages are more than the compensation payable to the Contractor, the Contractor will remain liable after termination, and the AOC can affirmatively collect damages.

14. Termination for Convenience

The performance of work under this Contract may be terminated by the AOC in accordance with this clause in whole or, from time to time, in part whenever the AOC determines that such termination is in the AOC's best interest. The AOC will pay all reasonable costs associated with this Contract that the Contractor has incurred up to the date of termination, and all reasonable costs associated with termination of the Contract; however, the Contractor shall not be reimbursed for any anticipatory profits that have not been earned up to the date of termination.

15. Delays and Extensions of Time

The Contractor agrees to perform this Contract continuously and diligently. No charges or claims for damages shall be made by the Contractor for any delays or hindrances, regardless of cause, in the performance of services under this Contract. Time extensions may be granted only for excusable delays that arise from unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to acts of God, acts of the public enemy, acts of the State in either its sovereign or contractual capacity, acts of another Contractor in the performance of an AOC contract, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, or the delay of a subcontractor or supplier arising from unforeseeable causes beyond the control and without the fault or negligence of either the Contractor or the subcontractor or supplier.

16. Suspension of Work

The AOC may direct the Contractor in writing to suspend, delay, or interrupt all or any part of its performance for such period of time as the Procurement Officer may determine to be appropriate for the AOC's convenience.

17. Pre-existing Law

The applicable statutes and regulations of the State of Maryland are hereby incorporated in this Contract.

18. Financial Disclosure

The Contractor shall comply with the provisions of MD Code, State Finance and Procurement § 13-221.

19. Political Contribution Disclosure

The Contractor shall comply with Title 14 of the Election Law of Maryland.

20. Right to Audit

- 20.1 The Contractor shall establish a reasonable accounting system, shall retain and maintain all records and supporting documents and materials relating to this Contract for five (5) years after final payment by the AOC hereunder and shall make them available for inspection and audit by authorized representatives of the State of Maryland and/or the AOC, including the Procurement Officer or the Procurement Officer's designee, at all reasonable times. The Contractor shall cooperate fully with any audits or investigations conducted by the State of Maryland and/or the AOC.
- 20.2 The AOC reserves the right, at its sole discretion at any time, to perform an audit of the Contractor's performance under this Contract. Auditing is defined as an independent objective assurance and consulting activity performed by qualified personnel including, but not limited to, the AOC's Internal Audit Department, to determine by investigation, examination, or evaluation of objective evidence from data, statements, records, operations, and performance practices (financial or otherwise), the Contractor's compliance with the Contract, including but not limited to adequacy and compliance with established procedures and internal controls over the Contract services being performed for the AOC.
- 20.3 Upon three (3) business days' notice, the Contractor shall provide the AOC reasonable access to their respective records to verify compliance with the terms of the Contract. The AOC may conduct these audits with any or all of its own internal resources or by securing the services of a third party accounting or audit firm, solely at the AOC's election. The AOC may copy, at its own expense, any record related to the services performed and provided under this Contract.
- 20.4 The right to audit shall include the Contractor's subcontractors including, but not limited to, any lower tier subcontractor(s) that provide essential support to the Contract services. The Contractor and/or subcontractor(s) shall ensure the AOC has the right to audit such subcontractor(s).

21. Liability for Loss of Data

In the event of loss of any data or records, which such loss is due to the error, negligence, or intentional act or omission of the Contractor, whether or not related to the performance of this contract, the Contractor shall be responsible, irrespective of cost to the Contractor, for recreating all such lost data or records in a manner, format, and time-frame acceptable to the AOC.

22. Subcontracting and Assignment

The Contractor may subcontract any portion of the services provided under this Contract by obtaining the Procurement Officer's prior written approval. The Contractor may assign this Contract, or any of its rights or obligations hereunder, only with the Procurement Officer's prior written approval. Any such subcontract or assignment shall be subject to any terms and conditions that the Procurement Officer deems necessary to protect the interest of the State of Maryland. The AOC shall not be responsible for the fulfillment of the Contractor's obligations to subcontractors.

23. Novation and Assignment

If the Contractor sells its interests in the Contract to another business entity (hereinafter "assignee"), the original Contractor must notify the AOC of the assignment within five (5) business days. The Contractor's assignee and the AOC must sign a novation agreeing to continue with the original terms of the Contract. The assignee must accept all liability on behalf of the Contractor and submit the necessary documentation (i.e. Certificate of Insurance) with identical insurance coverage to the Contractor to the Procurement Officer within five (5) business days of notifying the AOC of the assignment.

24. Overtime

Contractors shall be paid according to the RFP. If overtime pay is not provided for in the RFP, then the Contractor shall not be provided compensation for overtime unless otherwise agreed to in advance, in writing, by the Procurement Officer.

25. Indemnification

- 25.1. The Contractor shall hold harmless and indemnify the AOC from and against any and all losses, damages, claims, suits, actions, liabilities, and/or expenses, including, without limitation, attorneys' fees and costs and disbursements of any character that arise from, are in connection with or are attributable to the performance or nonperformance of the Contractor or its subcontractors under this contract.
- 25.2 The AOC has no obligation to provide legal counsel or defense to the Contractor or its subcontractors in the event that a suit, claim or action of any character is brought by any person not party to this Contract against the Contractor or its subcontractors as a result of or relating to the Contractor's obligations under this Contract.
- 25.3 The AOC has no obligation for the payment of any judgments or the settlement of any claims against the Contractor or its subcontractors as a result of or relating to the Contractor's obligations under this Contract.

25.4 The Contractor shall immediately notify the Procurement Officer of any claim, suit or action made or filed against the Contractor or its subcontractors regarding any matter resulting from or relating to the Contractor's obligations under the Contract, and shall cooperate, assist and consult with the AOC in the defense or investigation of any such claim, suit, or action.

26. Limitation of Liability

Without prejudice to the AOC's right to pursue non-monetary remedies, Contractor shall be liable as follows:

- 26.1 For infringement of patents, trademarks, trade secrets, and copyrights, as provided in § 5 of this Contract;
- 26.2 For damages arising out of death or bodily injury or property damage, no limitation; and;
- 26.3 For all other claims, damages, loss, costs, expenses, suits or actions in any way related to this Contract, regardless of the form of such actions, the Contractor's liability shall not exceed five (5) times the NTE amount. Notwithstanding the foregoing, the Contractor's liability for third-party claims shall be unlimited.
- 26.4 For damages arising out of a cyber breach, defined as a breach resulting in actual or potential harm to the AOC's network, hardware, software, or other information systems.

27. Public Information Act Notice

The AOC provides public access to records in accordance with MD Code, General Provisions § 4-101 *et seq.* and the Maryland Rules of Procedure, Rules 16-901 through 16-912. If a request is made to review any records pertaining to this contract, the Contractor may be contacted by the AOC, as circumstances allow, to express its views on the availability of requested information. The final decision on release of any information rests with the AOC.

28. Conflict of Interest

- 28.1 "Conflict of interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the State or the AOC, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage. "Conflict of interest" includes pending litigation in the Maryland courts.
- 28.2 "Person" includes a contractor, consultant, or subcontractor or sub consultant at any tier, and also includes an employee or agent of any of them if the employee or agent has or will have the authority to control or supervise all or a portion of the work for which a bid or offer is made.

28.3 The Contractor warrants that, except as disclosed in Section 28.4 below, there are no relevant facts or circumstances now giving rise or which could, in the future, give rise to a conflict of interest.

28.4 The following facts or circumstances give rise or could in the future give rise to a conflict of interest (Contractor: explain details-attach additional sheets if necessary);
if none, so state:

28.5 The Contractor agrees that if an actual or potential conflict of interest arises after the Contract commences, the Contractor shall immediately make a full disclosure in writing to the Procurement Officer of all relevant facts and circumstances. This disclosure shall include a description of actions which the Contractor has taken and proposes to take to avoid, mitigate, or neutralize the actual or potential conflict of interest. If the Contract has been awarded and performance of the Contract has begun, the Contractor shall continue performance until notified by the Procurement Officer of any contrary action to be taken. The existence of a conflict of interest is cause for termination of the Contract as well as disciplinary action against an employee for whom a conflict exists.

29. Ownership and Rights in Data

29.1 In addition to the requirements stated in the RFP, the Contractor agrees to furnish the AOC with copies of the following: computations, computer files, data, model(s), transmittal letters, response letters, training materials, and all other documents or correspondence pertinent to the operation of **[insert type of Goods or Services]**.

29.2 The AOC shall be the owner of all materials developed under this Contract and shall be entitled to use, transfer, disclose, and copy them in any manner, without restriction and without compensation to the Contractor. Without the AOC's prior written consent, Contractor may neither use, execute, reproduce, display, perform, distribute (internally or externally), retain copies of, or prepare derivative works based on, these Materials nor authorize others to perform those acts.

29.3 The Contractor agrees that, at all times during the terms of this Contract and thereafter, all materials developed under this Contract, shall be "works for hire" as that term is interpreted under U.S. copyright law. To the extent that any of these materials are not works for hire for the AOC, the Contractor hereby relinquishes, transfers, and assigns to the AOC all of its rights, title, and interest (including all intellectual property rights) in such materials, and shall cooperate with the AOC in effectuating and registering any necessary assignments.

29.4 The AOC shall retain full ownership over any materials that the AOC provides to the Contractor under this Contract.

RECITALS

WHEREAS, the Contractor and AOC have entered into Contract No. **KXX-XXXX-XX** _____ (the “Contract”); and

WHEREAS, in order for Contractor to perform the work required under the Contract, or in the course of that work, the Contractor, the Contractor’s subcontractors, and the Contractor’s and subcontractors’ employees and agents (**collectively the “Contractor’s Personnel”**) may come into contact with information maintained or held by the Judicial branch of the Maryland government (“Confidential Information”), including the AOC and all courts, units and departments (**collectively “the Judiciary”**); and

WHEREAS, the Judiciary, in order to comply with the law, fulfill its various missions, and enhance the safety of participants in the judicial process, must ensure the confidentiality of certain information, and, to that end, must act as the sole entity with the authority to determine which information held by the Judiciary may be disclosed to persons or entities outside of the Judiciary; and

WHEREAS, Contractor acknowledges that Contractor’s compliance with this Agreement is a condition of doing business with AOC,

NOW, THEREFORE, Contractor agrees as follows:

1. “Confidential Information” includes any and all information provided by or made available by the Judiciary to Contractor’s Personnel in connection with the Contract, regardless of the form, format, or media on or in which the Confidential Information is provided and regardless of whether any such Confidential Information is marked as such or disclosed deliberately or inadvertently. Such information is Confidential Information, whether or not its contents may also be gathered from other sources, or may subsequently be disseminated to the public. Confidential Information includes, by way of example only, information that the Contractor’s Personnel sees, views, hears, takes notes from, copies, possesses or is otherwise provided access to and use of by the Judiciary, whether the information relates to the Contract or the Contract has placed the Contractor’s Personnel in the position to receive the information. Confidential information further includes information both held by the Judiciary and derived or created from information held by the Judiciary.

2. Contractor’s Personnel shall not, without the AOC’s prior written consent, copy, disclose, publish, release, transfer, disseminate, use, or allow access for any purpose or in any form, any Confidential Information, except for the sole and exclusive purpose of performing under the Contract and except for disclosures to such Judiciary employees whose knowledge of the information is necessary to the performance of the Contract. Contractor shall limit access to the Confidential Information to Contractor’s Personnel who: 1) have a demonstrable need to know such Confidential Information in order to perform Contractor’s duties under the Contract and 2) have agreed with Contractor in writing to be bound by the disclosure and use limitations pertaining to the Confidential Information. The names of Contractor’s Personnel are attached hereto and made a part hereof as Exhibit 1. With respect to information pertaining to the job performance, skills, or conduct of any Judiciary employee, the **only person with the need to know such information**

is _____, and, except in cases of emergency involving imminent or actual bodily harm or significant property loss or damage, such information may only be disseminated to him, or, in his absence, to the State Court Administrator.

3. Contractor shall require each employee, agent, and subcontractor whose name appears on Exhibit 1 to sign a writing acknowledging receipt of a copy of, and agreeing to comply with the terms and conditions of, this Agreement. Subcontractors shall expressly agree to all of the terms applicable to Contractor. Accordingly, subcontractors must require their employees and agents to sign such a writing and must submit those individuals' names to the Contractor for inclusion on Exhibit 1. Upon the Procurement Officer's request, Contractor shall provide originals of all such writings to the AOC. Contractor and subcontractors shall update Exhibit 1 by adding additional names as needed and shall ensure that no employee or agent comes into contact with Confidential Information before that person has signed this Agreement. This Agreement shall not be construed to create an employment relationship between AOC and any of Contractor's or subcontractors' personnel.

4. If Contractor intends to disseminate any portion of the Confidential Information to non-employee agents who are assisting in Contractor's performance of the Contract or who will otherwise have a role in performing any aspect of the Contract, Contractor shall first obtain AOC Contract Manager's written consent to any such dissemination. AOC's Contract Manager may grant, deny, or condition any such consent, as it may deem appropriate in the AOC Contract Manager's sole and absolute subjective discretion.

5. Contractor shall hold the Confidential Information in trust and in strictest confidence, adopt or establish operating procedures and physical security measures, take all other measures necessary to protect the Confidential Information from inadvertent release or disclosure to, or theft by, unauthorized third parties, and prevent all or any portion of the Confidential Information from falling into the public domain or into the possession of persons not bound to maintain the confidentiality of the Confidential Information.

6. Contractor shall promptly advise the AOC Contract Manager in writing if Contractor learns of any unauthorized use, misappropriation, or disclosure of the Confidential Information by any of Contractor's Personnel or the Contractor's former Personnel. Contractor shall, at its own expense, cooperate with AOC in seeking damages and/or injunctive or other equitable relief against any such person(s).

7. Upon the earlier of AOC's request or termination of the Contract, Contractor shall, at its own expense, return to the AOC Contract Manager, all copies of the Confidential Information, no matter how formatted or stored, in Contractor's and/or Contractor's Personnel's care, custody, control or possession.

8. A breach of this Agreement by the Contractor or noncompliance by Contractor's Personnel with the terms of this Agreement shall also constitute a breach of the Contract. The termination of the Contract does not terminate Contractor's obligations under this Agreement.

9. Contractor acknowledges that any failure by the Contractor or Contractor's Personnel to abide by the terms of this Agreement may cause irreparable harm to the Judiciary and that monetary damages may be inadequate to compensate the Judiciary for such breach. Accordingly, the Contractor agrees that the AOC may, in addition to any other remedy available to AOC under Maryland and any applicable federal law, seek injunctive relief and/or liquidated damages of \$1,000 for each unauthorized disclosure. Contractor consents to personal jurisdiction in the Maryland State Courts and to the application of Maryland law, if AOC so elects in its sole discretion, irrespective of Maryland's conflict-of-law rules. If the Judiciary suffers any losses, damages, liabilities, expenses, or costs (including, by way of example only, attorneys' fees and disbursements) that are attributable, in whole or in part, to any failure by the Contractor or any of the Contractor's Personnel to comply with the requirements of this Agreement, the Contractor shall hold harmless and indemnify the Judiciary from and against any such losses, damages, liabilities, expenses, and/or costs.

10. The parties further agree that 1) Contractor's rights and obligations under this Agreement may not be assigned or delegated, by operation of law or otherwise, without AOC's prior written consent; 2) the invalidity or unenforceability

of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall be construed to provide the broadest possible protection against the disclosure of Judiciary information; 3) signatures exchanged by facsimile are effective for all purposes hereunder to the same extent as original signatures; and 4) the Recitals are not merely prefatory but are an integral part hereof.
