

RFP
ADR Program Management Workshop Series

Q&As #1
April 12, 2012

1. Will there be Internet access available for the presentations?

Offerors should not count on internet access being available. Locations haven't been selected yet, so we cannot promise that there will be an internet connection at any or all of them.

2. Is it the intention of the RFP to propose a workshop that will integrate all 4 areas: Intake Challenges , Leadership, Neuroscience, and Marketing into a single workshop, or will each specialty be the singular focus of a 3 hour presentation?

Each specialty will be the singular focus of a 3-hour presentation. A provider who has the requisite qualifications for more than one area may submit proposals for more than one topic, but each presentation should address only one topic area at a time.
