The workgroup engaged a technical consultant firm to assist in discovering and documenting ODR requirements and how ODR software can be adopted and incorporated into the Judiciary’s existing case management practices and is now working with ODR software developers. Tasks associated with launching the new system include defining the technical and business requirements, along with identifying the necessary policy and business process changes needed to implement an ODR solution.

**PURPOSE**

The Major Projects Committee recommended that a workgroup be formed to oversee the implementation of artificial intelligence (AI) and redaction technologies within case management practices. The redaction software will integrate with Odyssey and File and Serve. The project will be accomplished with two vendors, CSI Intellidact Software and Tyler Technologies CSI Intellidact Redaction Integration Connector.

The immediate need is to define how to use this technology to assist with expungements and unit charge removals that are eligible under Criminal Law §§10-105 and 10-107. This law affects the offenses under Criminal Law §5-601 and became effective January 1, 2023.

The workgroup will:

- Formally identify pilot courts, both District and circuit courts.
- Review Maryland Judiciary case practices and determine how AI and redaction technologies can best serve the immediate needs imposed under Criminal Law §§10-105 and 10-107.
- Identify parameters to “teach” redaction software how to recognize terms associated with cannabis expungement.
- Identify and set future direction on the use of redaction technologies for the shielding of personally identifiable information (PII) within case documents. PII is data that can be used to distinguish or trace an individual’s identity, such as name, social security number, date of birth, etc.
- Identify and set future direction on the use of AI technologies to streamline the case document review process and case record updates within the MDEC system.
- Identify other areas that may benefit from redaction software, such as Human Resources, Procurement, JIS, and Legal Affairs.
- Identify Maryland rules and policies that may require changes with future AI and redaction use being considered for adoption.

**WORK PRODUCT**

The workgroup will spearhead the implementation and integration of AI and redaction technologies to support the cannabis reform law. The policies and practices defined for the pilot courts will serve as the model to leverage this technology across all other courts in the State of Maryland. After initial redaction/AI goals related to cannabis reform are implemented, the workgroup will assist with defining how redaction and AI can be utilized in other areas.

**Nature and Purpose**

This subcommittee encompasses: Adult Circuit Court Drug Court; Juvenile Drug Court; District Court Drug Court; Mental Health Court; Veterans’ Court; Re-entry Court; and Truancy Court. The purpose of this subcommittee is to assist these courts in its purview and provide a comprehensive and collaborative approach to dealing with the issues that arise for the participants in these courts. This subcommittee will assist each county in employing best practices, including: providing evidence based training; technical assistance; research; and in identifying funding support to their courts. The subcommittee will be in constant contact with each of the counties and their respective courts to allow for sharing information concerning what works, but also what doesn’t work. This subcommittee will maintain its current role of reviewing and commenting on all applications for the creation of new specialty courts in Maryland. This subcommittee will also assume the roles of the Drug Court Oversight Committee and the Mental Health Oversight Committee. The Problem Solving Courts Subcommittee will therefore be responsible for reviewing all statistics and reports from these particular courts to ensure they are remaining up-to-date with the recommended evidence based practices and maintaining proper records.

This subcommittee will also be responsible for providing training to members of the judiciary regarding the topics that fall under this subcommittee’s purview. This subcommittee’s training will be offered both in collaboration with the Judicial Institute and independent of it. This subcommittee will be well-positioned to administer this training not only to the judiciary, but also to the State’s Attorneys’ Offices, the Defense Bar, the Health Department, Community Supervision and Law Enforcement. I believe these updates should be provided on a yearly basis.
