PROCESSING LOCAL REVENUE DISBURSEMENTS

STEP 1: Verify Data – There are two parts of the data verification process. First to run the Revenue Detail Activity Report and second to run a query to determine if you have any adjustments required before beginning the initial process. The totals from each of these reports should match, otherwise an adjustment may need to be made. If you are unsure, please enter a Service Now ticket for assistance from the GEARS Team or contact DBF for assistance. Also, this query will be used to balance to your Disbursement Summary Report.
